

Renting vs. Buying Mats

Rental mats are not only very expensive but can also be dangerous. We have all seen flipping corners and the creeping action these thin, rubber-backed mats are famous for.

You are already vacuuming these mats daily which is the bulk of required maintenance; why not do your own mats and save MANY dollars while reducing your liability due to possible trip hazards.

REDUCE MAINTENANCE COSTS WITH PROPER MATTING

There are three types of entrance matting:

SCRAPER

This is the first line of defense against dirt and water in a vestibule or inside a building. This mat should aggressively scrape "big water," snow, and sand from your shoes.

WIPER/DRIER

The last line of defense inside a building. This matting should scrape "small water" from your shoes, trap and hold fine sand.

WIPER/SCRAPER COMBINATIONS

For entrances that don't have room for both wiper and scraper mats, these dual-fibre mats will provide much better protection than drier mats.

Total Care 3 Mat System

A colour coordinated, high performance 3 mat dirt reduction system designed to remove, trap and hold up to 85% of tracked in dirt at the front door.

-Each individual mat member has a specific function and each mat may be used separately to meet specific needs. However, when these matting partners are used in unison with a minimum of 15' of total matting, they become a complete line of defense against mud, snow, dirt and debris.

-The Total Care 3 mat system is offered in 5 carefully selected decorative colours.

Fore-Runner - Scraper

Heavy-duty scraping action removes excess dirt and moisture with an individual's first two steps into the facility. Superior scraping surface. Loop construction traps dirt, gravel and mud, and holds them in the base of the mat. Fade-resistant. Stain-resistant. Slip-resistant, colour-coordinated vinyl backing/borders. All have coordinated carpet surface and colours.

Cross-Over - Wiper/Scraper

Aggressive dual fiber combination scrapes dirt and absorbs water from shoes with an individual's first two steps into your facility. An ideal transitional mat for high traffic areas. A combination of rough and fine polypropylene olefin fibers scrapes soil and loosens debris, and at the same time, retains and traps moisture. Dries quickly. Fade and stain-resistant. Slip-resistant, colour coordinated vinyl backing and borders.

Walk-A-Way - Wiper

Our premium absorbent loop-pile mat provides an excellent, final "two-step" moisture barrier for your floors. Dense, loop-pile olefin fibers result in a super-absorbent mat that stops and traps final moisture and dirt. Withstands heavy traffic for long wear. Fast drying fibers. Fade and stain-resistant. Slip-resistant, colour-coordinated vinyl backing/borders.

Standard Mat Sizes

2' x 3' 3' x 4' 3' x 5' 3' x 6' 3' x 10' 4' x 6' 4' x 8' 4' x 10'

Also available in 3', 4' and 6' rolls. Custom sizes are available.

DID YOU KNOW?

By utilizing high performance entrance matting on at least 10' to 15' as recommended by the U.S. Green Building Council and the Carpet and Rug Institute you can capture 85% to 95% of contaminants saving maintenance dollars and protecting building assets.

A minimum of 10-15 feet of entrance mats provide the most effective soil management

Logo Mats

Matting

WaterHog™ Logo Inlay – Wiper/Scraper

No set-up charge! Fast service! Put your company logo or any message on the industry's finest indoor/outdoor mat. With our unique inlay process, the logo or message is specially cut out of different carpet colours. These carpet sections are then pieced together and bonded to a rubber backing to create a beautiful, long-lasting and practical image mat for any workplace. Green friendly rubber backing has 25% recycled rubber content. WaterHog™ inlays are available with rubber border or Fashion fabric border. Available in the same sizes and colours as WaterHog Classic.

Classic Impressions™ - Wiper Mats

No set-up charge! Fast service! Orders ship within 7 days from time of final approval. Our most versatile logo mat yet! Style and quality are combined to create attractive designs that are printed onto the face of the mat with Andersen's state-of-the-art digital printer. The Classic Impressions manufacturing process can produce the most detailed designs that include small letters and fine details from a colour palette of 25 beautiful colours. "Phase-In" colours that produce a shaded effect are possible with Classic Impressions. All Classic Impressions logo mats are manufactured with a premium static dissipative 100% nylon yarn that is dyed using Perma-Dye plus StainStopper dyeing technology. Green friendly rubber backing has 25% recycled rubber content.

ANTI-FATIGUE MATS

Enhance Comfort and Increase Productivity

Anti-Fatigue mats are available in a wide range of sizes, weights and materials. It has been proven that the proper use of anti-fatigue mats can enhance worker productivity by over 20%. These mats are designed for use whenever workers spend time standing and will help to eliminate muscular skeletal disorders.

Anti-Fatigue Matting

Tuff Spun Anti-Fatigue Matting

This product is a 100% chemically blown PVC sponge foam designed to provide good Anti-Fatigue benefits. Wear-Bonded™ Tuff-Spun® has a heavy duty top surface layer for improved abrasion resistance and wear over a low density vinyl foam for improved comfort and anti-fatigue benefits.

Comfort Flow Anti-Fatigue

Lighter in weight for easier handling. Fully launderable mat that performs great as an anti-fatigue mat and as a flow-through mat in wet or dry environments. Constructed of 100% high density closed cell nitrile rubber cushion which is far superior in grease and oil resistance than other "grease proof" mats. Provides excellent anti-fatigue properties for added employee comfort and improved ergonomics, improved employee morale and productivity. Low profile, 3/8" thick, and slip-resistant surface reduces slip and fall accidents. Non-skid backing keeps mat in place. Anti-microbial treated against degradation from micro-organisms and minimizes mats being a source of odours.

Sizes: 2' x 3' 3' x 5' 3' x 9' 4' x 6'

Safety Step

A vulcanized rubber 3' x 3' modular mat with circular drain holes and a multi-nib backing. The multi-nib backing provides aeration so that floors can dry quickly and adds to the anti-fatigue properties. Built-in connectors on one side allow easy assembly of mats for larger areas.

3' x 3' tiles each

Safewalk Light

A vulcanized rubber mat with circular drainage holes and raised surface ribs. The raised surface ribs provide excellent traction reducing the hazards of slipping and tripping. Clean-up and handling time is less due to the mats lightweight construction. Large circular openings allow liquid and debris to drain, keeping the surface of the mat dry and not slippery.

Sizes: 3' x 5' 3' x 10' 3' x 15' 3' x 20'
